The Photo Booth

Way cool! I did this at my own wedding, after seeing it at a friends wedding. I set up a backdrop, lights, and take pictures of anyone who comes along. It can be a quick family portrait, a snapshot of your work friends, girlfriends posing like Charley's Angels, or, like at my wedding, my wife in Cowboy boots, and four people eating cake. This is a fabulous addition to any reception. By the way, they ROCK in Black & White! Add a minimum of 2 hours to any entrée (i.e.: if you want a four hour, make it a six!)

These are just the entrée's! Plenty of things can be done above and beyond just the entrée's. Jay can certainly put together something special for those who want a heavier dose of black and White, all Black and White, infrared B/W, or other funkiness technology can bring us. Jay is a creative, and adventurous individual. Very little makes Jay uncomfortable (unless, of course, the law frowns on the idea) out of state weddings are also available by quote for travel expenses. Suggestions and special requests are always welcome!
